

# Yellow Fish

We are running the Yellow Fish campaign in the Porth Catchment to reduce surface water pollution that ends up in our rivers and onto Porth Beach.

The Yellow Fish campaign is an Environment Agency initiative with one clear message:

**“only rain down the drain!”**

Drains in this area that have been marked with the **Yellow Fish** symbol are drains that lead directly to the **Ocean**. This can result in harmful pollutants endangering our health & wildlife.

Let's work together to ensure our community has the highest water quality possible, for our rivers, beaches & ocean.

Road drains should only have rain down the drain...
